PROJECTS

Weather App (React + API)

Developed a dynamic application fetching real-time weather data with a responsive UI and API integration.

Secure Authentication System

Built a full-stack login/signup system with JWT-based validation and a secure user flow.

Smart Calculator

Created real-time calculation logic with an interactive and user-friendly interface.

Responsive UI Templates

Designed modern, mobile-first layouts improving user experience and accessibility.

KEY STRENGTHS

Clean Code

Writes maintainable, scalable code following industry best practices.

Responsive Design

Builds layouts that work seamlessly across all devices.

Performance

Focused on optimizing applications for speed and efficiency.

Team Collaboration

Communicates effectively and adapts quickly within teams.
